The Biology Project, an interactive online resource for learning biology developed at The University of Arizona. The Biology Project is fun, richly illustrated, and tested on 1000s of students. It has been designed for biology students at the college and high school level, but is useful for medical students, physicians, science writers, and all types of interested people.

The Biology Project

This MCAT Biochemistry Review Summary Page is by no means an exhaustive review of MCAT Biochemistry. Our summary is only meant to highlight key points that are most helpful for the new MCAT.

Biology EOC Review Every biology student in the state of Arkansas must take an end-of-course biology exam which will be given in April. Students who do NOT score proficient or advanced will have to go through remediation AFTER SCHOOL in order to keep their biology credit. The following information will help you prepare for ...

Biology EOC Review - BIOLOGY JUNCTION

Cofactors. The catalytic activity of many enzymes depends on the presence of small molecules termed cofactors, although the precise role varies with the cofactor and the enzyme. Such an enzyme without its cofactor is referred to as an apoenzyme; the complete, catalytically active enzyme is called a holoenzyme. Cofactors can be subdivided into two groups: metals and small organic molecules

Enzymes | Biochemistry for Medics - Lecture Notes

1. INTRODUCTION - OVERVIEW - Biology as a science deals with the origin, history, process, and physical characteristics, of plants and animals: it includes botany, and zoology. A study of biology includes the study of the chemical basis of living organisms, DNA. Other related sciences include microbiology and organic chemistry.

Biology - 101science.com

—Objective: Today I am going to work on or present my project, for my animal/plant so that I can be successful and complete my Animal/Plant Survey Project. I know I have learned it when I have received a passing grade on my final project. Agenda —Attendance —2nd and 4th - FINAL PROJECT PRESENTATIONS

Link to Departments website. The major in Accounting at UGA is designed to give students an understanding of the theory of accounting as it is used in our society: accounting standards, financial statement preparation, product costs, budgeting, taxation, auditing, risk assessment, and controls.

University of Georgia

Introduction. Some forms of chemical biology attempt to answer biological questions by directly probing living systems at the chemical level. In contrast to research using biochemistry, genetics, or molecular biology, where mutagenesis can provide a new version of the organism, cell, or biomolecule of interest, chemical biology probes systems in vitro and in vivo with small molecules that have ...

1. Introduction. Biochar is the product of thermal degradation of organic materials in the absence of air (pyrolysis), and is distinguished from charcoal by its use as a soil amendment (Lehmann and Joseph, 2009).Biochar has been described as a possible means to improve soil fertility as well as other ecosystem services and sequester carbon (C) to mitigate climate change (Lehmann et al., 2006 ...

Not long ago, DNA sequencing was a time-consuming, tedious process. With readily available commercial equipment and kits, it is now routine. The techniques used in this lab are applicable in a wide variety of settings, including scientific research and forensic labs. The Bacterial Identification ...

BACTERIAL BIOLUMINESCENCE - Photobiology

In biology, an organism (from Greek: ὄργανισμός, organismos) is any individual entity that exhibits the properties of life.It is a synonym for "life form".Organisms are classified by taxonomy into specified groups such as the multicellular animals, plants, and fungi; or unicellular microorganisms such as a protists, bacteria, and archaea. All types of organisms are capable of ...
