In an effort to activate student prior knowledge, students will complete the Punnett Squares Practice Worksheet to reinforce their understanding of single-trait Punnett squares before this lesson dives into more complicated dihybrid crosses using Punnett squares to predict the probability of an outcome.. Students were first introduced to the concept of Punnett Squares in a prior lesson.

Ninth grade Lesson Dihybrid Crosses Are Twice The Fun!

Natural Selection. You are a bird hunting moths (both dark and light) that live on trees. As you capture the moths most easily visible against the tree surface, the moth populations change, illustrating the effects of natural selection.
