Preface to the Home Education Series. The educational outlook is rather misty and depressing both at home and abroad. That science should be a staple of education, that the teaching of Latin, of modern languages, of mathematics, must be reformed, that nature and handicrafts should be pressed into service for the training of the eye and hand, that boys and girls must learn to write English and ...

Below 10 –24 kg. Unlike other physical quantities, mass-energy does not have an a priori expected minimal quantity, as is the case with time or length, or an observed basic quantum as in the case of electric charge. Planck's law allows for the existence of photons with arbitrarily low energies. Consequently, there can only ever be an experimental lower bound on the mass of a supposedly ...

The use of profanity in films has always been controversial, but has increased significantly in recent years. The use of the word fuck in film draws particular criticism; in 2005, the documentary Fuck dealt entirely with this phenomenon. The word fuck is thought to be the taboo term used most in American film. The 1927 Motion Picture Production Code, better known as the "Hays Code", banned the ...
