Political science, the systematic study of governance by the application of empirical and generally scientific methods of analysis. As traditionally defined and studied, political science examines the state and its organs and institutions. The contemporary discipline, however, is considerably broader than this, encompassing studies of all the societal, cultural, and psychological factors that ...

New institutionalism or neo-institutionalism is a school of thought focused on developing a sociological view of institutions—the way they interact and how they affect society. It provides a way of viewing institutions outside of the traditional views of economics by explaining why and how institutions emerge in a certain way within a given context. . This institutional view argues that ...
