Preface to the Home Education Series. The educational outlook is rather misty and depressing both at home and abroad. That science should be a staple of education, that the teaching of Latin, of modern languages, of mathematics, must be reformed, that nature and handicrafts should be pressed into service for the training of the eye and hand, that boys and girls must learn to write English and ...

The Beginning of Modern Science. I expect a terrible rebuke from one of my adversaries, and I can almost hear him shouting in my ears that it is one thing to deal with matters physically and quite another to do so mathematically, and that geometers should stick to their fantasies, and not get involved in philosophical matters where the conclusions are different from those in mathematics.

Chapter Two THOUGHT POWER—ITS LAWS AND ITS DYNAMICS Thought—The Architect of Destiny . If the mind dwells continually upon one train of thought, a groove is formed into which the thought-force runs automatically and such a habit of thought survives death and since it belongs to the ego, is carried over to the subsequent earth-life as a thought-tendency and capacity.
