Just joined this website specifically to say a big thanks to JSTCD for your info on how to reset VSC warning light. I have a Lexus RX 400H 2005 UK spec and I initially opened the front brakes to check the condition of pads and disc and free the piston as it was pulling a bit but this did not activate any lights.

Pinecone's second law: Assuming a tech level more advanced than near future (i.e. interstellar -or- extremely cheap interplanetary travel exists), there will exist no true warship which will not ALSO be capable of single-handedly exterminating an entire continent, be it via nukes, kinetics or

handwavium bombs. Corollary: If you are able to intercept and kill another warship across a star system ...
